

Mandatory Language for a Maximum Contaminant Level Violation - TTHM

The Texas Commission on Environmental Quality (TCEQ) has notified the **PRAIRIE GROVE UTILITIES (PWS TX0030027)** public water system that the drinking water being supplied to customers had exceeded the Maximum Contaminant Level (MCL) for total trihalomethanes. The U.S. Environmental Protection Agency (U.S. EPA) has established the MCL for total trihalomethanes to be 0.080 milligrams per liter (mg/L) based on a locational running annual average (LRAA) and has determined that it is a health concern at levels above the MCL. Analysis of drinking water in your community for total trihalomethanes indicates a compliance value in:

Monitoring period	Contaminant Level	Sample point
Quarter 1 2024	0.123 mg/L	DBP2-01: 4661 BUTTER MILK ROAD, DIBOLL, TX
Quarter 1 2024	0.105 mg/L	DBP2-02: 3436 FM 1818, DIBOLL, TX

Trihalomethanes are a group of volatile organic compounds that are formed when chlorine, added to the water during the treatment process for disinfection, reacts with naturally-occurring organic matter in the water.

Some people who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidney, or central nervous systems, and may have an increased risk of getting cancer.

You do not need to use an alternative water supply. However, if you have health concerns, you may want to talk to your doctor to get more information about how this may affect you.

We are taking the following actions to address this issue: Water system officials are in process of determining an alternative water source that will meet regulatory requirements.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact:

Water system official name: Mr. Kelley Holcomb.

Title: General Manager

Texas Commission on Environmental Quality

Protecting Texas by Reducing and Preventing Pollution

CERTIFICATE OF DELIVERY OF PUBLIC NOTICE TO CUSTOMERS

Public Water System (PWS) name: **PRAIRIE GROVE UTILITIES**

PWS ID (7-digit number required): **TX0030027**

Type violation: **TTHM MCL, LRAA**

Time Period of violation: **4th quarter of 2023**

The PWS named above has distributed the Public Notice (PN) for the type of violation and time period listed above by:

Mail or direct delivery, to bill-paying customers as required by 30 TAC §290.122(b)(2)(A) for community water systems; and

The information contained in this public notification is correct and complies with required public notification content in accordance with 30 TAC §290.122; **and**

Made an adequate good-faith effort to reach non-bill-paying consumers by appropriate methods (check all below that apply):

- Posting the PN on the internet at www.anra.org/pgu
- Mailing the PN to postal patrons within the service area that do not receive a bill
- Advertising the PN in news media
- Publication of PN in local newspaper
- Posting the PN in public places
- Delivery of multiple copies to single bill addresses serving several persons
- Delivery to community organizations
- Email notification

Date of Delivery to Customers: November 29, 2023

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations."
